We're all in this together.

Since the start of the Covid-19 crisis, we have been focusing on ensuring the safety and wellbeing of our people and the communities we serve.

Our people

Our primary focus from the start of the crisis has been to protect and support our people, and we have implemented all possible safety measures:

Remote working for those who can

Temperature checks at our plant

Staggered breaks and handovers to ensure social distancing
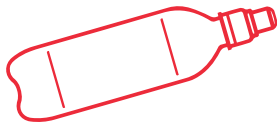

Personal protective equipment

Social distancing guidance for our sales teams in-store
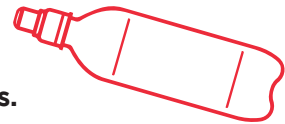

Our supply chain

Through our global supply chains, we have been able to secure much needed PPE for use by front line workers. We donated

10,000

bottles for use for hand sanitiser in care homes.

Our community

The Coca-Cola Foundation made a financial donation to FoodCloud, allowing the charity to deliver the equivalent of **100,000 meals** to communities in need across Ireland and Northern Ireland

We also donated more than

900,000

of our drinks

doubling our monthly drinks donations to our charity partners Simon Community, FoodCloud and Fareshare

making weekly donations to frontline workers in more than

30 hospitals and testing centres across the island

We're very proud to have played our part for society and the communities we serve across the island of Ireland.

Our impact

"This very timely donation from The Coca-Cola Foundation will help FoodCloud get more good food out to the most vulnerable people in our communities, during this crisis and beyond". **FoodCloud CEO Iseult Ward**

"On behalf of all the staff here at Musgrave Park Hospital thank you for all the soft drink donations. It was a really kind gesture from Coca-Cola, which has been greatly received and appreciated by all staff during these unprecedented times." **Andrew Chambers, Musgrave Park Hospital**

"On behalf of Beaumont Hospital staff we would like to sincerely thank you and your colleagues for your generous donation. It is very much appreciated by our nurses in the Covid 19 areas particularly in the ICU." **Sue & Janet, Beaumont Hospital**
