

# MISSION SUSTAINABILITY: ENERGY-EFFICIENT COOLERS

## A NEW GENERATION OF 'ICOOLERS'

BECAUSE REFRIGERANTS ARE HARMFUL TO THE ENVIRONMENT, OUR REFRIGERATION EQUIPMENT HAS A NEGATIVE IMPACT, ACCOUNTING FOR ALMOST **40% OF OUR CARBON EMISSIONS** (2017).

AS WE TRY TO REDUCE EMISSIONS ACROSS OUR VALUE CHAIN, INCLUDING IN CUSTOMER OUTLETS, WE ARE INTRODUCING A NEW GENERATION OF 'ICOOLERS', WHICH USE REFRIGERANTS WITH ZERO GLOBAL-WARMING POTENTIAL, AND ARE

**57% MORE ENERGY-EFFICIENT.**

IN FEBRUARY 2019, WE WILL REACH THE MILESTONE OF OUR **200,000<sup>th</sup> ICOOLER IN CUSTOMER OUTLETS**, HELPING TO DRIVE DOWN OUR CO<sub>2</sub> EMISSIONS AND EASING OUR CUSTOMERS' ENERGY BILLS.

BY THE END OF 2018, THEY WILL ALREADY ACCOUNT FOR **13% OF ALL OUR COOLERS**, PUTTING US WELL ON TRACK TO ACHIEVE OUR GOAL OF **50% BY 2025.**
